

Dear ones,
Our Christmas

28 Dec. 02

has been uprooted, so to speak because
Ida Rose has ovarian cancer.

She has had three "chemos" and one
surgery. The next thing that will happen
is to have three more "chemos". Then she
should be out of the "Woods".

She has been a "trooper"

As of now, she should have killed all
of the cancer.

She never complains about her situation.
Now they are taking exercises to strengthen
her muscles.

Because of our situation, we did not
send many Christmas cards
