Hall-Agee telegraph line...Mr.Poulter?

1937 Summer Played in Hi-Hatter Orchestra.

1937-1939 Attended Weber College and graduated in 1939. Worked as College Janitor and also continued to play in the Hi-Hatters Dance Band.

Describe some of the tough janitor's duties.

After School Studies

Tracy, Lane, Darrell, Vern Stromberg, and a red-headed fellow....there may have been others.. All studied together.

Quit orchestra sometime around March 1938

Got job working full time photography operation with Denton Checketts.

1939 Getting more interested in girls but dated very little due to financial constraints. Almost always went with others.. Started going more and more with Ida-Rose Langford about July 1939

1939 Quit Checketts for a better job as a Jr.

Chemist at Sperry Flour Mills at the foot of 30th Street in Ogden. Started School at the U of U in

the fall. I commuted weekends to work at

Sperry and see Ida Rose.

Almost gave up going to the U because of the long registration lines and paperwork. Looking back, this was a very close call for my future success. Continued work at Sperry and worked full time there in the summer of 1940

1941 Marriage to Ida-Rose Langford on September 24th, 1941.

Continued working week ends at Sperry's and part time at the University of Utah.

Ida-Rose quits work at ~~Kresge~~ as it became *Woolworth's* apparent that I could earn enough for us to live on and also keep up my grades in school.

Our lives were pleasant. Being married was a special blessing to me. I was a very serious person. Ida-Rose enlivened my life.

Lucy Van Cott/Pres. Grant

sleeping Porches.

Thora Whiting 489-5703

Juan Whiting 489-5822 Mapleton

Mrs. Marsh & child

Courtney?

Good start - I know you've done much already, but go after it! I think you could write a fine autobiography - and so could I.
