Dear Mom,

I heard about Doug's father's death from Sherlene on e-mail, yesterday. Please include Barry and myself in donations for flowers. Nancy and Doug have really had a rough year or two, haven't they?

Were Doug and his Dad close? It's sometimes even worse if you are somewhat estranged from your parents as you have so many feelings about what might have been when death comes. Let me know how much we owe you!

What's happening to Tracy with his housing? Has he been able to find a rental? I hate to ask him as it can be so discouraging if people keep asking and you haven't had any luck dealing with your problems. He keeps in pretty good touch with me on e-mail, but because our computer was down for almost two weeks, I feel a little detached from what is going on out there. I did get the news about his trip to Mexico. I'm hoping that he'll start to see some benefit from the medication as time passes. Still, it can't be easy not having a local source for medication. I hope he can work something out so he doesn't have to go down there every three months!

We're all fine and dandy here. Thanks for the birthday check. I used it to get a good haircut in January. It's almost time for me to get it trimmed up again. I think I'll get a new perm first. It always looks better if you cut it after it's permed.

We understand you have a ticket you need to use before April. Why don't you go see Liz, or come and see me. You can help me decide on what to do with my Master Bedroom area as far as colors and carpeting, etc. We've decided to get to work on that space at long last. Course at the rate I get around to things these days we'll probably get it done next year sometime.
