

as it was called, we were to use
"soap" & not wax.

I remember one Halloween
I went with the "big kids".
They swiped someones lease,
put filled trunk cans, climbed
the nearby hill & waited for
the street car to reach it's
"end" at the top of the hill.

while the conductor changed his
"rear wheel" from one end of the car
another to the other (about 5 min)
