

When the War came, Tracy went in as an <sup>line</sup> officer -  
~~radar officer~~. We spent 6 months in. but  
~~was~~ was able to transfer into Radar.  
~~meanwhile~~. I followed him for a while  
but when Tracy Jr was on the way  
Shulene & I went back to Ogden.  
Tracy Jr was the cheapest baby I had,  
I had him in the military hospital ~~at~~  
the base in Clearfield. \$25. for my food.

~~When Tracy got out of the service,~~  
after the war. Tracy went back to the U &  
got his master's & Ph.D. We lived in  
stadium village on his G.I. allowance.  
That G.I. bill was a smart idea because  
thousands of navy & Army men went  
back to school and took out degrees.  
The income tax they later paid as professionals <sup>probably</sup> more than  
I <sup>got to</sup> when he graduated. we drove <sup>with his Ph.D. in 1948</sup> back <sup>he took</sup> <sup>ago</sup> <sup>with</sup>  
to Schenectady N.Y. in an car we had  
<sup>purchased</sup> brought from his brother Eugene.  
The car had no upholstery & leaned  
to one side, but it took us safely East -  
we used it until we could buy a new one,  
We were at G. E. <sup>from 1948 to 1955</sup> where Tracy  
became ~~of~~ some-what famous at  
the man who made man-made  
diamonds in Dec 1954.  
In 1955 we came to Utah where Tracy  
was accepted as a Director of Research at Y
