#### MOUND FORT ELEMENTARY

Although our auditorium is not a new one, but the old one the junior boys and girls had last year, we are very much pleased with it. Now we can have assemblies of our own.

Our school is large and beautiful, much of it having been rebuilt this year and the old part has been remodeled. In the new building are many classrooms, a very large auditorium and a gym with a balcony for spectators.

We are thankful and proud not only of our lovely building, but also of our kind, efficient teachers. — Miriam Whitaker.

Miss McCracken, our new assistant principal, was introduced to the pupils of her school by Miss Arleen Larsen. She in turn introduced all the new teachers of our school. #### CENTRAL'S QUEEN

Now is the proper time for all students of Central to consider the tenth grade girl most desirable for queen of Central in the spring. Deep thought should be given and the following requirements must be kept in mind:

A tenth grade girl must maintain a B average and must be lovely. If she is charming at all times and conducts herself in a ladylike manner, she will make the ideal queen.

It is not necessary for a girl to have attended Central for three years. Any girl who has shown leadership and possesses a pleasing personality certainly qualifies as a candidate.

Students, it is not too early to ponder upon these facts. Look for a girl who meets these requirements. —Aurline Osmond.

#### ENGLISH LANGUAGE

Were we without our language or unable to speak or write, we would lose one of our most priceless possessions, for our power of communication constitutes the prime factor of our comfort, happiness, and education.

Few of us realize the rapid strides of progress we have made in almost every phase of our lives through the change in our language. From rude signs, symbols and gestures, we have advanced to a language which is beautiful to speak and hear. Much of our language has been derived from Latin and the Romance languages, but daily new words are being annexed to the English vocabulary.

English is the most extensively spoken language in the world today. Besides being spoken in our own country, it is the commercial language throughout the world. It is said that "The sun never sets on the British Empire," and throughout all these lands English is spoken.

Although it is a difficult language, with accuracy and knowledge we can master and pass on to others a language which will increase by its effectiveness human knowledge and the literary and cultural wealth of our race. —Blaine Yeaman.
