

He & Louise retired to the
lovely planned community
they have laid in.

He is a return French
missionary. They're not in-
cluding to the end. They've
let the things of the world
come first. They are fine
people but have their
priorities mixed up somewhat.
(Ila Rose Judge not - lest ye
be so judged.) It's difficult
I guess to be successful

"in the world" and ~~remain~~
Keep your church priorities
in order. Those who "seek first
the Kingdom" are blessed, though.

Maybe it's just as well that
we haven't been that successful.
Called home. Charlotte doing fine.
must find something nice to
take home to the Capuli's.
(maybe a basket of good
California fruit) or a box of
dried fruit.

Mon 21 1st day of Spring. Tonight was the
President's dinner for the award
winners at the Physical Society's
meeting. Saw the Buddys - the Strong's -
& the Wentorfs. Bob and Vivian have
bought a farm about 60 miles
drive away from Schenectady.

They are now living on the Vly Rd.
where we used to live. Vivian
is interested in orchids and

Mon 22 - Tracy gave his talk today with the
other recipients of the award.

I admire my husband. He is able
to overcome his justified bitterness
at G.E.'s suppression of his really
being the discoverer of the diamond.
Also his being the one to make the
equipment that made it all
possible. A man does not (sometimes)
mind if he does not receive
monetary reward if he at least
gets his honest share of fame.

He should hate G.E. & those men,
but he does not - instead he
shows friendliness and comradeship
to them. I am glad that this is
so, as hatred & the drive for revenge
would only have made our lives
unhappy. I truly wish I should have
received that award all by himself.

Vivian (Bob Wentorf's wife) has a
conservatory & grows some orchids
in it. We took her down to the
Ridgway orchids & she purchased some
plants.

The Bundy's are going to tour
ground on their way home & will
stop in to see us about Easter.
(see pg 24)
