

Tues, Mar 29. Will found out the
 paper I wrote for humanities
 on "rational styles" in Brown is
 all wrong & will have to be
 done over. Just grades back
 tomorrow. I have decided to go
 back on a diet. I simply
 must bring my appetite
 (and my waistline) under
 control. Virginia, Liz & Shirlene
 have all called. When we came
 home from California, David
 told us that the only way to
 save Miga was to get the Co.
 to become a regular corporation
 which would make all stock equal
 and thus restore the balance of
 power between Duwan & Bill.
 Sat night a friend of Bill's
 came over and offered to buy
 Dad's stock (all of it - whole
 family). Dad & David thought it
 might be a good deal until
 they thought it over. David
 thinks it's just a play so Bill
 has stock the Board & thus
 got power — we decided to
 turn it down. Doug said James
 Dope tried to get paid to sell
 his stock a week ago. David
 is getting stock profits from all
 the kids and as David & I can

get Richard Stratford to vote
 with us we can get the stock
 changed over to regular corporation.
 It seems as if Bill is trying to
 take over the company & force
 Duwan right out. The way the
 company is now we are subsidizing
 the co each year as we pay
 taxes on dividends which are
 not issued. ~~we don't~~ Bill gets control
 they won't ever issue dividends &
 the possibility of great earnings
 would really leave the stockholders
 holding the bag.

Anyway, I guess we will see.

Friday Got 94 out of 100 on Hist test. One more &
 then we're through. Got B+ on the religion
 test. Missed humanities. Bob — got our tests
 back. Bob Sampson (ml) is at a professional
 meeting & took his wife. Got Alan to take
 notes for me in humanities & went with
 Tracy to David Lee's mg in Ross' house.
 Lonely affair — David has come a long
 way.
