

week. Jan. The children have been concerned (bless them) Leg + Shulene + Barry + Ginger have called several times to check.

David is putting Dad's press together. He is working on designs for his new moving belt.

Tray's counselors Bill Woolf and Russ Hansen are still carrying the load of the Bishopric. Bless their hearts.

Saturday Barbara Adline and her family arrived. Barbara is going to stay with us for awhile to get better acquainted with her fiancé who is going to the Y. She is from the L. H. area and a former companion of Charlotte's. She is being considered for a job at Nephi Kigerian's office as a receptionist. She comes from a family of 11 children. 9 of whom are still at home. Hope things work out well for her.

Yesterday we had a snow storm.

About 4 P. must be a direct result of the prayers of the Saints. The whole west coast ~~is~~ + intermountain area is dry to drought degree this year + there is much concern for next summer.

The Laurs came over last night to see the greenhouse and

It was beautiful and quiet in back of our house with the new snow.

 Virginia Weds Jan 23, 1952
 Charlotte Tues Oct 20, 1953
 Nancy Tues April 1, 1958

The above days of the week are a result of Tray's new calculator. He has a new one (H. P.) that can figure out the day-week-mo of any event since 1920. Tray is doing this while he is ill.

Feb 16 - Ten days since I have made an entry. Busy days. Until Feb 1 Tray continued to get worse. We went to Dr. But last week, beginning Monday Tray started to improve. Dr. Gardner says to see how he is by next week. Meanwhile a lot has happened and I guess that's why I haven't written in this journal. Tray went back to his school duties last Thursday. Resting before + after. He went to church Sunday. His counselors were glad to see him back.
