

until I had sold the ones I have
left. I'll take a chance. I wanted
to send this while the exchange
rate is so good.

I think I can sell \$50. to my
A.S. sisters in the work. If not
well, they still make a good
gift for friends at Christmas,
etc.

Get this check to the bank as
soon as you get it because
the predictions are that the
U.S. dollar may start to
fall.

The bank's estimate of
the rate is \$42 to \$1. U.S.
Hope you get that good a
rate.

Sir John Rose Hall

Check #499

I figure
order for \$100. a hundred & one
last time for \$50 for \$1 & 10 for the
rest you probably spent for
materials over \$50.00 for materials.
I sent you \$50.00 & so, with the
\$500.00 enclosed you will probably
be making at least as much as
you do on your dresses over cost.

I will probably be able to
sell \$50. worth of the ones I
have ordered.

I have enclosed ~~some~~ ^a handouts
I have placed with E.H.S.
merchants who showed
interest. I did not get the number
of white vs. some which I ordered,
~~but~~ but that's O.K. I got enough
of each to fill the girls' orders.
However, if these stores order
from you, be sure I have one
woman do the whole order so
they will all be alike, & be careful
to be sure they are the thread
ordered. Or you will get them
back. I would suggest you
ask the cost to you up front.
Most stores place orders & then pay
30 days after delivery. I hope some
of them order from you but
don't count on it.
