Dear Elder and Sister Hall

I wonder whether you received our last letter to you just after the 2nd of January. We thought you would reply but it's been a month and some ~~da~~ weeks. The communication here it's a problem, it takes about 2 weeks before a person in U.S.A. gets a letter.

In my last letter, sister and Elder Hall, we wrote about the state of our house. I, portia, also expressed my dreams and hopes. Sister and Elder Hall it has always been my dream to go to BYU. I have tried to seek help from the church, but they didn't do much to help. I got my Advanced level results and I got 4 points, I can not qualify to get into our local university, but outside ones. Besides I have always wanted to go to a church university.

I am really sorry elders if I am being a problem. It's just that I need help. I could not think of anyone who can help me except you. If you can not help me, please write back to me. I would really appreciate a reply. Sister and Elder Hall our world has become a thing too big to handle

In Zimbabwe things are becoming harder and harder. Prices are going up rapidly. In Zimbabwe one cannot enter the dream world because everything ~~just~~ is in vain. Until now we do not have a chapel, we sometimes attend services outside the president's home area in Mufakose. Sometimes when mum is away selling in South Africa, we cannot go to church, because we can not afford the back and forth trips to Mufakose. What a world to live in nowadays.

But elders be rest assured, no matter what happens we will keep going to church. We are even prepared to walk the distance to church. Because deep in our souls we know that God is there and that through him we shall survive. With God nothing is impossible.

We thank you Elder and sister Hall for everything that you have done for us the past years. At least those years you gave us something to hold on to. Thank you so much.

I will be looking forward for your reply.

Yours

Portia Marutha
