Dear Tracy & Ida Rose -

Thank you for your letter about the tablecloths in which you said I might have the spiral pattern if no one else had spoken for it. I took the letter over to Pat Higbee, and no one else had spoken for it so I have it. However there was a misunderstanding about the price. The sticker on the box it came in said \$25⁰⁰ Zimbabwe dollars Registered # R-0992 mailed 14 Apr 1982 with the U.S. equivalent incl. mailing ^{american} \$43⁰⁰. I had not seen the box or the letter to her before. She just told me \$43 and that is what I wrote to you. She had kept track of which cloths, etc came in which boxes. This one is described as oblong crocheted tablecloth. There was a larger oblong, I think in another shipment, which did not have as much work, and was less in price. I don't think the \$43 included insurance so that would be \$43⁰⁰ more. I am sending

described in your letter

Pracy Jr. \$47³⁰. If that is not right
I would be happy to pay more.

I am sorry that I did not
understand it was for ward members
only. If it is not convenient to send
another one, my sister-in-law will
understand, and we surely do not
want to impose further. If the Hawks
to whom you gave the pattern find it, or
something else that is beautiful, of
course we would like it, but it will
be fine either way. Mine will always
be a treasure.

Stephen is taking care of the
\$41.20 U.S. you reported.

Again, we wish you well in
the great service you are giving.
I should tell you that Dan, the
son of the Romanian who defected
and lives in our basement, was
baptized 2 weeks ago. Aurel's mother
arrived last night, and it is hoped
that Aurel's wife and daughter will
be able to come in the next month.
It has been a battle with so much
red tape and inefficiency on the part
of the U.S. We hope their trial will
soon end. It has been a good
experience for us in remembering
how blessed we are.

Love to both of you,
Maurine
