

Dear Sis Hall,

It was super to receive your letter and all the bits of news you gave us. I suppose in a way I wish that I could once again be a part of it, and I can't see that happening unless they call Tom as a Mission Pres. or both of us on a mission like yourselves. It feels good though to know that we were part of it even for a short time.

I think Paterson will make a good Dist. Pres. and Reg Niel will certainly get things going however loosely Church policy is followed.

At least both of them understand the blacks and are sympathetic towards them.

We are settling down a little now, we are in a rented home which is very nice.

Very very small yard though. The children are in school, not really settled and are in fact finding it strange to some degree. Not the strictness they are used to and Katherine the youngest has for the last two days been going to school without crying. Shame she was making herself so sick with crying & worrying about school in fact it was unsettling all of us. Tom now has a job much the same as he was doing in Zimbabwe but lower position, we feel it's a start anyway.

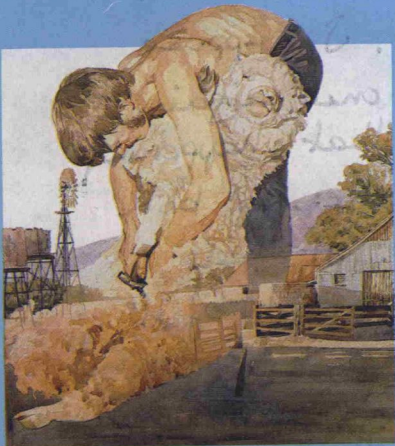

We have started an Import/Export business here we started years ago but it was lying dormant now we have resurrected it. The dresses I took over the crochet ones. There certainly seems a market for it here but we thought we could maybe get the bulk sent over either by the woman who approached us I think I told you or we could get Sarah involved. To do this we need to know how cheap we could get the dresses from her then the C.I.F. Brisbane which means if you sent over say 100 for a 100 dresses how much would they cost for
