

Sat. 19. Feb 83

Dear THE HALLS

You have to forgive me for not answering your letters really. Oh well we are still working in Highfield. We are doing just fine up here really. This month we are going to have two baptisms and next month we are going to have four or five baptisms in Highfield. That is really great I tell you. Mary is doing just fine up here. She has been called to a position in the Church she is a teacher. She is teaching young girls in Highfield which is really good. Sarah and Martha are R.S. councillors to my mummy and Revai Musoni is the Sunday School President. Everyone does have something to do now I am glad. President Nield is doing just great in Highfield. On Wednesday mornings the Sisters in Highfield are being taught how to cook by Sister Nield. They are happy to have such kind of lessons really. With my Daddy he is not at one place because I am sure you know him very well. So Pres Nield told him that they were going to put him in the District and

he must travel to all the branches  
up here so that they will keep him  
away from Highfield that's is really  
good I like it that way too. Well  
I guess you do have a picture of  
Highfield Branch now.

Now I am asking a big favour  
from you two down there. There is  
only one thing which I am trying to get is  
a tape recorder. So I am just asking you  
maybe you can give me yours when  
you are about to go back home  
that is if you don't mind. If you would  
do that I guess I would be the  
happiest guy. I am having it hard to get  
one from Elders going home they are  
always selling or trade them with  
something. I am just asking.

I can't think of anything else  
All the saints in Highfield are  
sending their love to you they say  
they will always remember you.

Take care see you later

Love

Peter Chey
