14th Feb 83.

Dear Elder and Sister Hall,

Thank you so much for your letter it was kind of you to let us know how all our people are getting along, we were sorry to hear that you hadn't had much success with them, it is quite typical of Mitchells Blain, but then you do come up with really good people occasionally.

We have written to Delia, we hope we had the correct address, it was a shock to hear of their very bad accident, we do hope they are recovering steadily.

Are you enjoying Cape Town? It is very hot here, but we enjoy it. We are working with the black people in Kwa Mashu, we are doing mostly welfare services work, it seems they needed to understand more of the Gospel, so we have planned 10 lessons out of the Gospel Principles manual, and we are giving them to 17 families. Most of them can't speak much English so we have learned just a little Zulu, and when needed we have one of the young men here act as an interpreter. I am also helping with Relief

Society, They have a black Relief Society President who is very good, and speaks good english, so we have begun to organize visiting teaching, We hope it will get off the ground and its sisters will work hard at it, as you know beginning something new is always a problem. but we can try.

If you see Sister Olsen, please tell her that all its families here love her and Elda Olsen very much, they are always talking about them and they miss them.

We hope the Browns and its Cedra's have callings now, it would help them so much.

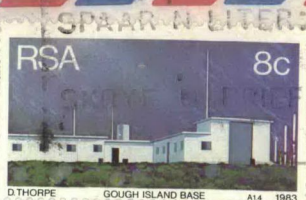

Please give them our love we miss them.

We were sorry we never arrived in Bulawayo, we got redirected to Durban when we arrived in Johannesburg, I left your parcel with Sister Margette, she said she would have it delivered where you wanted it to go.

We enjoy it here but the weather is so very very hot.

Our love and best wishes  
Frank & Maureen Boyle.
