

1-2-83.

Dear Brother & Sister Hall,

Thank you so much for  
the photographs which have  
come out very well.

I do hope that you are  
liking it in Cape Town,  
its very different from  
Johannesburg isn't it?

Brother and Sister Barry  
Stonabrook from New York  
were here about three  
weeks ago and asked for  
you.

I have been released  
from Relief Society  
and Sister Benington

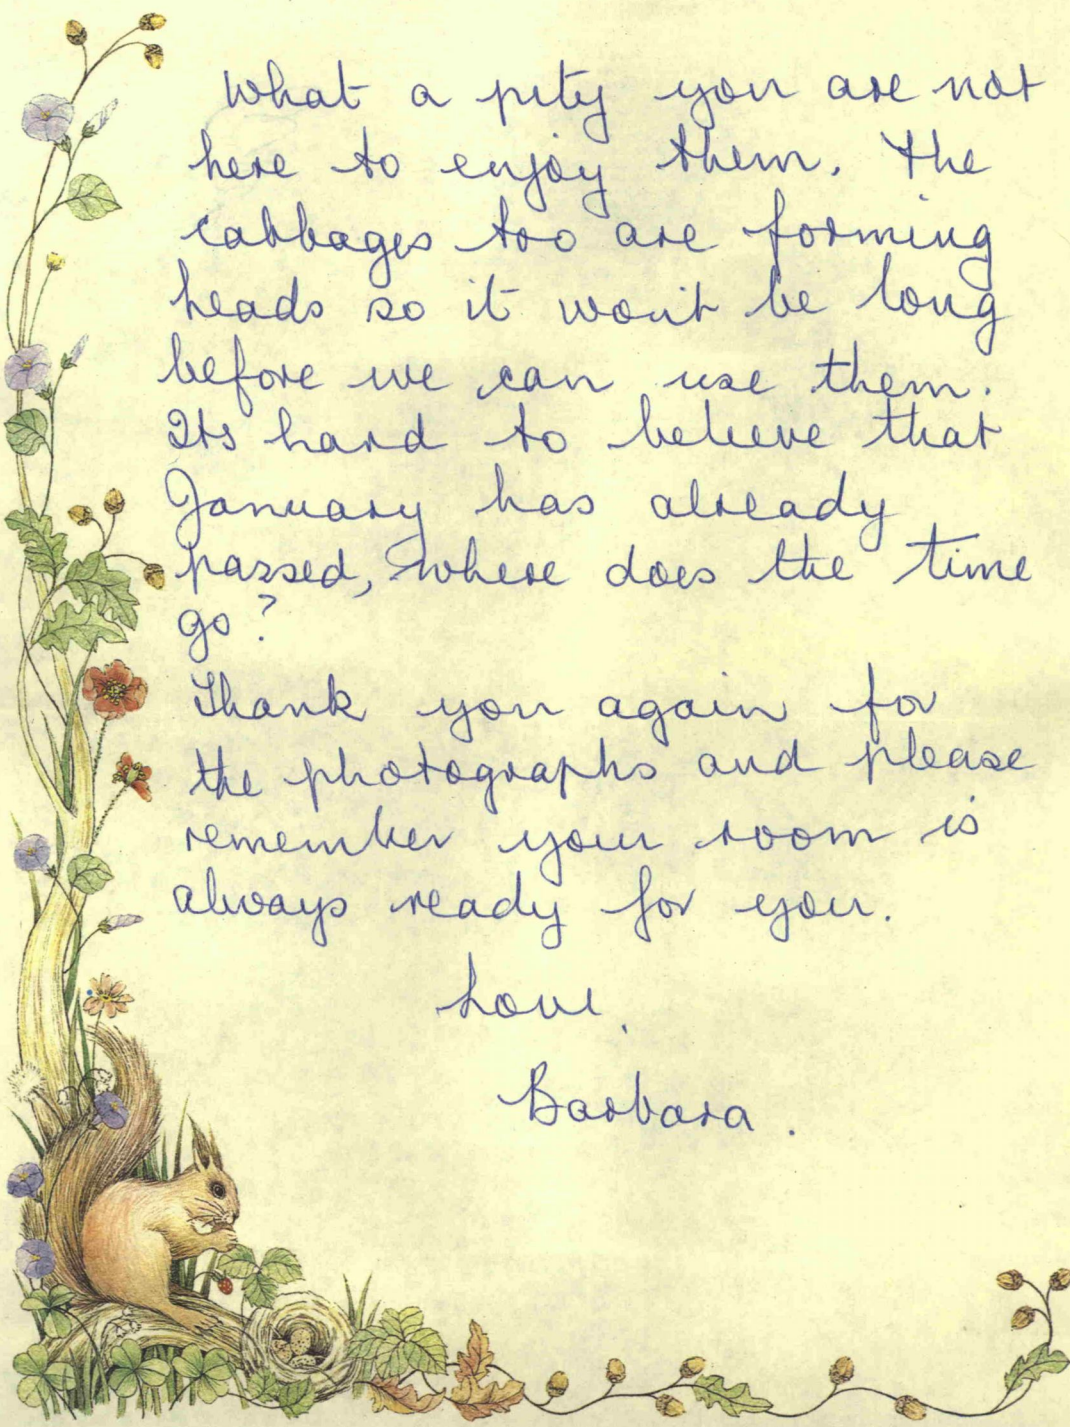

has taken my place. I don't mind the release it gives me a little more time to myself although now that Gospel Study classes have started again I am busy preparing lessons.

We are all well, Nigel is thoroughly enjoying his car, and spends a lot of time cleaning it and generally fussing about it.

The heat here has been incredible, I've never known it to go on for so long but thank goodness there has been some rain as well.

Our tomatoes are coming on nicely

What a pity you are not here to enjoy them. The cabbages too are forming heads so it won't be long before we can use them. Its hard to believe that January has already passed, where does the time go?

Thank you again for the photographs and please remember your room is always ready for you.

Love,

Barbara.
