super. Am impressed as much with the messages they
all give of being guided by "the spirit" as to where to go to
find those seeking & willing to listen to the gospel.

We're both fine... busy. David, Delora & 3 sons are here
for our Christmas. My mother abt. the same. Haven't
heard about how your Dad is, Ida Rose. maybe you didn't
know that mama fell in January & broke her left hip again
in April & broke her right hip. She is in the Governor C. Pils
medical center (Channing Care) in Caliente (15 miles from Parosa).
My sister, Helen, has gone on a mission to ^{Hawaii} Hawaii & brother John's twins
are in the South ^{the US} in missions - as we've had an exciting time, too.

We've had lots of snow already this winter, but temperature
not much or too often below freezing.

Keep wondering how Tracy is making out with the ANTS.

Love, M. Joy. \$5.00 enclosed on what is best for your people out there.
Bldg. fund or whatever. Wish it was more - ^{maybe} maybe someday if
you have a ship come in. So many of them sick. Love, M. Joy.

Holiday Greetings
and may every happiness be yours in
the New Year.

Love & God Bless you

We talk abt. visiting. We watch the busy little people who live
in your apartment & sometimes your family come by - especially
Tracy. Receive the packages & deliver them to your house, but
so many things don't get done. The missionary Homecoming
talks of Karen Jonsson, Ross Wood & Danna Rana's were just
