Dear Dr. Haal,

Many thanks for your letter and your kind assistance to Mack and Roy. Mack told me that you had phoned him, with certain advice. He really appreciates it and he is looking forward to his visit to the States. There is a new spring in his step and joy on his face!

I trust that you are receiving blessings on your work in what appears to be a very troubled country. The whole world these days appears to be in a state of current and uncertainty, and I am convinced that we must look to the Church as a strong force to counter the current and dispel the

uncertainty.

We are looking forward to seeing you again on your return trip. Please let me know when you intend returning to South Africa as we will make the necessary arrangements.

My very best regards to Mrs. Hall. My wife joins me in wishing you God's blessing upon your endeavours.

With all our prayers,

W. H. R. Keene
