Dear Tracy & Ida Rose,

I couldn't remember for sure
whether I had written you or not
and I certainly didn't want to miss
you this Christmas and New Year
Season.

We have been home a year
now and are back in the old
comfortable rut. If we possibly
can (a little later) we will go
on another mission. The blessings
and experiences are found in no
other way and we will always
be grateful you called us.

May the Lord bless you on all
your endeavors. I know He will!!

Wishing
you every happiness
at Christmas time
and all through
the New Year.

Ida Rose was always so good about
writing and sending the word newspapers.
We will always remember and love
you both.

Write if you get plenty of time.

Love Jack & Jean.

P.S. I know your having the same experiences
we had. Isn't it great.
