Dear E. + Sir. Hall,

28 Feb.

Sounds like our fellow missionaries are in the same boat we are in. It's nice to hear from someone who understands. Is it that misery loves company? You do have a great branch pres. Ours is a sweet man - humble + shy, this is uphill business, or else there is a secret to it that we just don't know about! We were told to activate the inactives here, but we are now down to plain ol' tractin'. It didn't take long for the inactives to get us all "sorted out." One man wrote a formal letter to the B.P. telling him to get their names off the rolls. Since 1977, every 3 yrs. young missionaries have tracted out the town with very little success. The ministers know we are here + tell their people not to let us in, as we are trying to convert them. How did they ever guess.

I didn't realize Sir. Laemmlein came when you did. She has a 5 wk. extension now. Have you seen her there yet? She says the Peeres cleaned up the flat in Linden.

If you do know any secrets, please pass them on. How are your living conditions? We stay with the B.P.'s family - the challenge of our lives - + theirs too, I am sure. We have searched everywhere for a place to hang our hats - no luck. Bless you for your bit of cheer. Hang in there. Love, The Waldrons
