

31 March 1983

Dear Elder + Sis. Hall,

We really enjoy your letters! We feel like we are down here in never-never land. But isn't this the greatest?! We are still fascinated with the whole lot - especially the Xhosas. Never get enough of observing these special people.

How is it going now? How can you help but get trunky this close to going-home time? What a great trip you are going to have! And to have your family meet you - what a dream come true! Surely hope you have a safe, wonderful trip. We want to do the same thing. How did you make arrangements?

Elders Stinger + Van der Watt are in East London. They came over for their day off a wk. or so ago. We guess we will be here another couple of months before we are sent over there.

So far, we haven't had to tract
yet - we've been lucky to find
contacts mostly shopping etc. -
Still aren't bringing them in by
the 1,000's like the Prophet says
to, but we are ever so grateful to
stay busy. Taught an "H" today.
We have the I disc. down pretty
well now - we get to use it lots.

The Cogley's from Sandton II (part-
member family) are coming down for
part of their Easter holidays. Pres. M.
said it's missionary work - do it -
so we're anxious to see them.

We're glad you have our daughter's
address (Connie). Thanks for giving
her a ring or going to see her for us.
Stay well - have a super trip -
and hope to hear from you again.
If not - we will see you when
we get home blutcha -

Love,

Our home: Verle + Joan Waldron
Route #2, Box #78 } Be sure to come
Tremonton, Ut. 84337 } see us!
