

Late Dec 1982

9 OMBERSLEY LN,
LAKEVIEW

Dear Bro + Sis. Hall,

We are thrilled that you have been transferred to Cape Town + that we will be able to meet you.

We are only sorry that we will not be at home to welcome you but we hope you will be comfortable in our home.

I have prepared the room at the end of the passage for you. All the draws + cupboards are empty but should you need more hanging space use the cupboard in the children's room.

I have left some things you may need where you can see them to save you hunting for them! In the kitchen just back in all the cupboards ~~which~~ + that will help you find your way around. The cupboard in the passage near the kitchen door is full of food, the freezer has meat in it (Beef on the top shelf + mutton on the bottom) + the back garden has carrots ~~and~~ ready to use please help yourself to all that you need. I'm sorry that I couldn't have fruit etc for you.

The milk and guava juice coupons are in

a draw in the kitchen - red for milk + pink for guava juice - and if you put the required number in your empty bottles leave them just inside the back gate + the milk man will collect it from there.

The first day you put them out you will have to try to catch him as he won't know that you are here - he comes about 8 AM

The electricity to the hot water cylinder is off you will see the switches above the stove in the kitchen.

Mr + Mrs DROST from No 12 have been looking after the garden + our home but will bring you the keys they have when they see you have arrived. The ~~big~~ little house they is one that they have, please could you clear the little box for us, and would you mind watering the garden for us 3 times a week

The cupboard near the bathroom has the linen in please help yourself when you need clean linen.

Please don't worry about trying to find other accommodation right now as it will be mid January to end of January before ~~you~~ the holiday makers leave. You are welcome to

stay as long as you like.

In the garage on the workbench you will find the potatoes.

In the top of the cupboard in your room are spare light bulbs if you should need one.

My goodness this is a jumbled letter!! & please excuse the mistakes!

When you come in use the back door as the Yale lock on its own is not safe so we have latched ~~it~~ & used the chain, on the front door

In the dining room sideboard is the dining service if you wish to use it and please use the blanket that under the tablecloth, the latter is in the linen cupboard.

Love

Jenny + Ivan
