Dear Ida Mae and Tracy,

your letter that was printed in the Stake newsletter some weeks ago was most interesting. Putting up with trillions of ants in your immediate environment didn't sound very pleasant. With your brilliant minds, maybe you have developed a way to be rid of them. I'm sure you have had to live above the inconveniences there.

There have been a series of missionary farewells and homecomings, with Brian Chapman & David Harris returning and Jack Saldutti & Kathleen Barnett leaving, also a series of showers and receptions - Brent Barnett, Alyson Dudley & Mindy Madew.

I have just been to Idaho to visit relatives. The mountains and valleys are beautiful - lush and green. We have had quite a bit of rain and lower than normal temperatures.

My Dan graduated from B. Y. U. last December and he has been teaching Science at Olympia Jr. High in Murray. They have a beautiful three month old baby boy - ^{at} almost four months old by now.

Clint and Naomi have built a home in Midway and divide their time between it and Provo, so sometimes I feel I have half a neighbor. Julie and Howard are hitting the political campaign trail quite heavily - and Sister Boardman was just released from the hospital a week ago and is at Karma's & Blaine's, so we have a very quiet street.
