

We miss the news, 14 March 82

Dear Elder<sup>rd</sup> Sister Hall -

We were very happy to hear from you. We miss Salisbury and the people there - Its nice to hear what's going on there. we wonder about them. Keep us informed will you?

We received all the things on the list and that's close enough to Sis Phillips' list - the \$15 things we got from you cancels the 10 B. of M. so as far as we're concerned we're happy. How about you? Were enjoying the mixes & tuna

We weren't too surprised about Grammy - we were afraid she might cool - we got a letter from her which we will answer and try to encourage her to take the lessons.

We'll be interested to hear what happens - and also to Sis. Twiddle, Robbtoms, + Dud Plooy - and others. Did you find the book about our contacts? Do you want us to make another one? Let us know.

Work is slow and discouraging here, too. I caught a bad cold asl soon as we got here - missed our first Sunday - and have had a hard time getting over it - sinus and hoarseness. But we've met a lot of nice people. Members are very friendly and the spirit at Church is great. We've been contacting inactive - (about 75% of membership) people who haven't been to Church for years - Really don't know how well be able to do much good - They've been visited by the Mr. Brides, then the Blacks + the Wheatfills - now us - It doesn't look too promising. There seems to be more white people here than Salis. - less blacks - Shows are better looking. No peddlars or Crochet centers like there. Sure hard to find any decent vegies - We miss Dofe St. shops.

We know our way around pretty good - as long as we have a map. We've enjoyed the Patterson's here.

I thank for everything. Ask Brighton if he's seen our daughter will she sent us 2 in Jan - we never received them - little ones.

If you thing are picking for you.
