THE JONSSONS

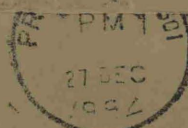

Our house is like a bookcase on which we place our book of life
Day by day we filled the pages each account of joy or strife
As we record a final chapter in this year which passed us by
Noteworthy are the blessings which came to us from up on high
Neighbors - family - and friends from throughout the world we treasure
For enhancing life and living to an extent which has no measure.
In turn we send to all of you a wish that's most sincere
A most MERRY CHRISTMAS and a very HAPPY NEW YEAR.

Jens Helen,
Karen + ERK

Hello again: We haven't heart anything since your arriving in Johannesburg. We do pray you are safe and well. We do know what you are doing is true and worth while. Karen has the feeling nothing is worth while since the efforts she spent in Germany. (also our sister Mima who is back from Guam). Sr. Boardman died yesterday--Clara Crosland is in the hospital for more surgery on her back. El Tueller broke her hip bone--Barbara Taylor is delayed in leaving for his mission because of her leg. Otherwise we are hobbling around still. HaHa. We paid David \$120 for some dresses and have used 5 of the beautiful dresses (People are simply wild about them) We don't know exactly what we owe you. We send the other things to Nancy. (or put them in your closet across the street. Your place looks beautiful and the kids are very conscientious about its upkeep. We do love and miss you.

The Jens Jonssons
