

his own culture was superior to that of the white.

The white, on the other hand, considered the Indians "savages", a barbarian, and the white leader's experience with dealing with the savage "hoard" in Ireland (by force) did not help Indian-white relationships.

yes

The entire period between 16

Except for isolated successes with peaceful relationships with Indians, namely the Quaker experience, and few Indians converted by Puritans, and Methodists in Pa. the entire colonial period from beginning to end was fraught with conflict.

The Quaker colony, ~~found~~ was so successful in the early years that Pennsylvania became a refuge from Indians driven from their homes in other areas, when the Scotch-Irish population
