

Contributors in a large measure to the
emergence of business as a free market
and to the political experiments which
culminated in the ^{1970s} collapse of the
constitutions by the end of the 1970s.

You do an outstanding job

on the one 1703 period.

I would have liked to see

more, however, on the latter

period. $P = A -$

$CF =$
 $B = 48$
