

I know David & Nancy don't know much about genealogical research but I feel this is an opportunity for them to learn. I would like to see all the family members involved if possible. That will lighten the work load & also give everyone an opportunity to receive the blessings of the spirit of Elijah. Even if say David or Nancy were assigned just one date to verify, I think that would be good. Every couple should submit their own F&R and we ought to have a ~~repository~~ one family member (^{Janzford} & Hall) in charge of collecting all the sheets & head of a repository so that all the 4 generation sheets & information will be in one location.

I would really like to see our family organized in a grandparent organization. Many of us ~~are~~ ^{live} too far apart to participate in a reunion but it might be nice to have a Hall or Janzford family newsletter. I've completely lost track of many of my cousins & even some of my aunts & uncles. I think it would be good to ask family members for ideas on for a family organization & it would be good to elect or appoint a family representative for both the Hall & Janzford side.

Bryan's Young family organization wrote each member & ask for a brief

already have birth, marriage + death information on some of the ~~pages~~ ^{lines}. For example I found a copy of Thos. Bennett + Maria Herbert's marriage certificate in my file and I'm sure you have already collected many certificates. What I would like you to do is to go through your file + put a red check mark by all the dates you have certificates for and also find out from others who have done research to see what certificates they have. Then we can go from there and write for birth, md, + death certificates for those dates that have not already been verified. Can you understand what I'm trying to say. There is no use for us to send for birth, marriage + death information if we already have copies in possession of family members. I wish I were in Utah to help you find out this information. I feel like my hands are tied. I have however made some suggestions for assignments (see pink sheets) You may want to make some changes because you know who has worked on which lines. We can also ~~add another name~~ assign more than one person to 1 FGR. For example ^{the} James H Langford Jr. FGR sheet involves a lot of names + dates so I assigned Tracy, David + Nancy to it and they can decide between themselves ~~who~~ who will ~~write~~ verify which dates.

They are going to print history of each and ~~in that way~~ ~~the~~ them so the family members can find out about each other & also preserve family history. The Weight family organization did the same thing & gave it to Bug's grandmother for her 80th B-day.

These are a few ideas I've had over the past while. Again I wish I were in Utah - I keep feeling like I can't do too much here - but maybe I'm wrong - Write & tell me of anything else that you want me to do -

I hope you can read this letter. It's after 10 pm and I'm writing 90 mph.

I hope every thing is well with you. How's Nancy's business going? I haven't heard from her for so long. The Hullemaner should be here soon - I hope!

Well, that's all for now.
Much love,

Charlotte

P.S. I enclosed a FG sheet to show what I was talking about earlier. Maybe instead of checking dates Verpus you could circle those on the sheet that need verification & then give the sheet to ~~someone~~ the assigned person
