

I have had other good reports abt. the good job that is being done in the garden & appreciate it very much. We glad Eddie finally had his baby & brother all is well.

2

abt. 35 miles

We go to Magee, Mississippi this afternoon & then on to ~~Jackson~~ Taylorsville abt. 18 miles farther on. Name ^{TWO} of the people with my choice people. We hope they are Golden.

We have a very large area to cover & use lots of gas & cover lots of miles. I guess the President assigned it to "folks" who had their own car & paid for their own gas. Anyway, we enjoy it & the Country is beautiful.

I was in Memphis, Tennessee - not far from here - on my first - in my youth - mission. Was into Arlington & Washington, D.C. Briefly then & our family has been back to that area since then.

In July - when it was nice & warm. I don't recall it being as moist as the air then as it is here. Perhaps young folks don't worry about such things as much.

Rory is getting ready to leave. He is constantly amazed at the tall's, tall's, tall's.

We love to appreciate you, may you & all of your family be blessed, guided, & protected by our Heavenly Father.
M. Joy & Rory

Did Helen & Jens get home from Russia safely? We appreciate the tidbits of news you sent. I'm so sorry abt. Sister Muller & her leg problems. I have an uncle who has had to have a leg removed because of varicose vein problems & have taught a few lessons ~~to~~ to a man who had had both legs removed to the hips - varicose vein problems. Since I, too, have them rather seriously, I am right conscious of it, doing as well as at home with them ^{however} - wearing unsightly elastic stockings but am thankful for them they help so much. Just wish I knew where I could buy the kind I like either here or in France, etc.

It's sad abt. Sister Stott. I do hope she can live until her precious daughter returns from her mission & long enough after to love & enjoy her.

We're sure Mother Litter would be appreciated just as much.
M. Joy
