Hall Family  
Everywhere  
U.S.A.

Dear Family,

Dad handed me the Hallmanack this morning and told me to get a letter written within a week. Here is a record, One day.

I am writing on the Megadiamond letter head just to show everyone our new image. The impression is our Logo and is used on our product literature etc. We are now doing advertising and promotion and spending all of our profits on expanding R&D and our commercial operations. Now that we have been successful in getting Dad and Tracy on board we will really take off. I have also hired Jim Hoen and several other professionals in the last year and so our staff is really quite impressive. Putting this whole group together during the last two years has been a real enjoyable experience for me. I get more satisfaction out of getting a job done <sup>for</sup> ~~our~~ organizing things so they can get done) than anything else.

Our annual report will come out soon. The company made approx. \$400,000 dollars last year which means the book value of our stock went up about \$1.00/share. Most of us own about 2000 shares so each of us earned, through the company, \$2,000. Don't expect any dividends however. I've spent it all already.

Karen and I are sending the children to a full-immersion-Spanish summer school where the teachers just talk Spanish and nothing else. We are considering supplementing this with a live-in helper that will be a Spanish (country) native and we will ask her to speak only Spanish to the children and us around the house. It is really cheap to get help like that if you provide an apartment. We will have to look awhile to find the right person. We will build a kitchenette-bedroom-bathroom with an outside entrance in our basement for the apartment. This way the whole family will pick up Spanish as a second language. Karen already knows Spanish and she and I will attend a night school class.

Somebody go through and correct all of my spelling errors now and then I won't have to.

See you all in August.

David & Family

P.S. I did -  
now somebody correct my letter.
