Sunday

Dear Family

Charlotte is over doing it in her cultural council responsibilities. The Art Fair a week ago was a success but the board member in charge took ill and was in the hospital. The brunt of the burden fell on Charlotte. The community dance sponsored by the cultural council was a success in enjoyment but did poorly financially. You would think more people would attend an adult dance than 40 couples. Those that went had a wonderful time. Music was from the 30's with accents through the Beatles era. Charlotte being so pregnant favored me with one dance. Most of the time I was dancing with older women. I didn't get to dance but may by 25% of the numbers. I would have liked to have danced everyone.

I mowed the lawn for the last time this year yesterday. I am looking forward to hunting season. I hope to not have to work Saturday. I have been working long hours with lots of overtime.

We just heard Mom Hall had a mild stroke but is recovering well. We pray for most of our extended family regularly.

Love, Bryan, Charlotte & Kids.
