Dear Family,

I guess all who are going to write, have by now. I am always the last. I will get this in the mail tomorrow.

I can't say much has happened. Sarah is in school now. She likes 1st grade. Her favorite part is recess. I don't think they have done much except review what they learned in kindergarden. I suppose the teacher is learning about the kids. I think that is important.

We had a birthday party for Sarah today. 12 kids plus our own. Charlotte did well for a mad house. I came home from work and the party was over. Is it fair to say I am glad I missed it?

We had some car problems with our new used car. With some inconvenience and \$330⁰⁰ spent in repairs it runs well. We were glad Mom & Dad Weight swapped cars with us for a week.

The dealer in ~~American Fork~~ ^{PROVO} took care of our needs. Delta has limited ability to take care of car problems. Delta is limited on a lot of things. Still I can say we always have fresh air (sometimes sprinkled with cow —).

I changed out one of my councilors in the elder's quorum. Our home teaching hit a new all time high. I put the old councilor as quorum instructor. This will be more suited to his abilities and circumstance.

I went to the ranch last weekend and the BYU football game. I had predicted BYU to loose. The heads were getting fat.

Love, Bryan and Family.
