

November 30<sup>th</sup>  
Friday 1979

Dear Family

Charlotte and I had a most enjoyable stay in Utah during Thanksgiving. We saw everyone we had planned to and a few more. In addition to Charlotte's family, I have three sisters and a brother attending BYU. Two of these sisters and my little brother are married and struggling through school. My father was born and raised in Springville, where my grandmother still lives. My father being the oldest of eight, you can imagine all the local relatives. We didn't try to see very many because this was Charlotte's vacation not mine.

We left California with Charlotte pregnant but spotting heavily. We decided to fly her up with Sarah on Thursday. The next day, Friday at 7:30 AM they were in the air. I chose to work Friday (to much expense for all of us to fly) and leave for Utah after work with my parents. My parents had more kids in Utah than at home so they planned to go up. We made good time and arrived in Provo the next day by noon. We slept about 6 hrs. outside of Las Vegas on the desert floor.

As the week progressed Charlotte began to spot more heavily although

P.S. Our morning schedule is identical to Sig & Martys.  
The only difference is we start at 6:30 AM and I  
go to work at 7:30 AM. When we feel very ambitious  
we get up at 7 AM.

for the most part she felt pretty good. Thursday night about 10:30 PM Dad and I gave her a blessing. Dad blessed her with comfort and that the Lord would take care of things in accordance with his eternal plan. It was about 2:30 AM when Charlotte finally had the miscarriage. She went through it very calmly and without too much pain. I suppose it was a relatively easy miscarriage if there is such a thing. Charlotte was about 2 to 2 1/2 months along. We will try again and hope to have a baby some time during the latter part of 1980.

Back in California, Charlotte had a D. & C. last Tuesday. We farmed Sarah out to ward members until I got home from work. <sup>to</sup> ~~to~~ give Charlotte some rest. The relief society brought by dinner for a few days ~~to~~ which helped a lot. I became self appointed maid for a week. I have been punishing Charlotte by sending her to bed after dinner. She is recovering quickly but today she over extended herself. Nothing serious happened, but now she ~~felt~~ feels lousy. She went to bed at 8 o'clock. Good night all,

Love,  
The Wrights  
Bryan, Charlotte & Sarah
