

Nov. 6, 1979

Dear family,

Since Mom Hall offered to buy our Payson home for 43,000.00 (if worst-came to worst,) we went ahead and started hunting for a new home in the provo-oreem area. We finally found the one we wanted! It had a double garage for Doug... 6 apple trees on the large lot... a fireplace... antique brown brick facing with barnwood trim... 2 bedrooms upstairs... full unfinished bsmt. Built in dishwasher, U-shape kitchenette with eating bar... a study-desk... fancy lighting fixtures... Sliding glass doors with a porch, and more! all this, for \$55,400. - ... which we felt was a real reasonable price! ... So we arranged for a loan. Our loan officer went ahead and processed our loan... only one problem... we hadn't sold our Payson home yet. He asked us if there were any prospective buyers... and we told him that my mother offered to buy it as a last resort at 43,000.00. His ~~eyes~~ bugged out, and without

hesitating, offered us 44,500.-, without even seeing it! He came out to payson that same evening to see the house, and signed an earnest money agreement with us then! Our loan went through - and so did his, and now we live in orem! It's a great location, only 5 miles from mothers house.... right next door to a brand new church, & 2 blocks from a new elementary school! We put 10,000.00 down, and our monthly payments are 385.00 per month, including taxes and insurance.

- Doug got a new job with the government. He now works as a lab technician in a new office. He tests soil for dams, government construction sights, and for other reasons not understood by me. He also tests cement for government construction, and water for other unknown reasons... (?) and other important jobs. (I'm new at this. It took me 3 years to start to understand the surveying end of things, now all this testing! maybe doug will be a mad scientist

like dad, david, & Tracy after all!))

I am no longer working at Reams. Mr. Reams decided that I should start working 60 hrs. a week, assume all responsibilities including store detective, (including testifying in court if necessary), receiving orders, taking inventory, buying, advertising, hiring, firing, sales, stocking shelves, straightening and more - without a raise. Well, he did give me a raise for 1,200.00 a month. then he decided he was over-paying me - so he DEDUCTED what he thought he had over-paid me from my next paycheck - which was around 300.00. I raised the roof on that! ... So he said he'd make it right with me. He gave me a 25¢ raise per hour.

POOHIE!! I QUIT! He thinks he can hire a woman for less than a man. He's right - but not with this woman!

Hansen Wholesale offered me a job for 3.50 starting per hr. I think I would like it there, but I'm waiting till they finish their new store to see if they'll still need me. →

for money I have been doing
ads for check-point.

Well, I better get going...
I have a long list of items
to get done today, so
we'll see ya later.

Love Nancy & Doug
