**Pat Sheranian/Excerpts from letter**

Please accept my appreciation for the support given me by ward members. This has been a rewarding and exciting experience. It has given me insights into the Lord's work and into my own personality. It has been a learning time for me and came at just the right time in my life. We will continue to keep our membership in this ward, using my brother's address, as our home base. Lincoln will return to continue his education in the fall.

Congratulations to **Becky** on the blessing of her baby daughter, Matisha Marie, in Sacrament Meeting Last Sunday, February 4th

**News Deadline: Thursday at 10:00 pm**

•**Relief Society**, Sunday February 11th. Members should bring their new Primary Songbooks (if they have them) to meeting. The lesson, "Family Gospel Study", page 109 will be given by Helen Jonsson

•**Relief Society Board Meeting** will be held at Faye Hansen's on Sun, Feb 18th, beginning at 9:00 am.

•**Lladdi Poyurs** thanks our Ward for the support and love expressed during her hospitalization.

•**Primary Activity Day** Was held Monday, January 29th. The theme was, "I Belong to the Church of Jesus Christ Of Latter Day Saints." Activities were divided into three groups--the time of Jesus, the time of Joseph Smith, and the present day. The children were taught that in each of these periods the people had scriptures to guide them, baptism was a necessary ordinance, and the Church was led by apostles and prophets. •The children were divided into groups and rotated to activities in three different areas of the Cultural Hall. •**Karen Reeder** led the activities for the time of Jesus. These included a memory game to learn the names of the original apostles, a pebble toss game, singing "Jesus Once was a Little child", and they had cheese, crackers, and grape juice for a treat. •**Kathryn Hansen** conducted the activities for the time of Joseph Smith. The children played a church history game and marbles, sang "Oh How Lovely Was The Morning", and had molasses cookies and milk for a snack. •**Pat Higbee** directed the activities of the present day. Each child made a picture of a church indicating that Jesus is the head of the Church, a prophet guides us, the scriptures contain the correct teachings of Jesus, and the priesthood is the power and authority to act in God's name. They sang "We Thank Thee O God for a Prophet." The game for the present time was a Balloon Stomp and the treat was an ice-cream sandwich.

•**Young Women** Last Sunday evening, the girls, their parents and the Bishopric held their "New Beginnings" program with the theme, *In the Foot steps of Deborah*. Thaylene Barrett Conducted. The girls displayed articles made in their mini-classes and hobby accomplishments such as painting, ceramics, sewing, etc. They also recited their favorite psalm or proverb. Annette Lunceford welcomed the new Beehives and presented achievement awards to the older girls. Bishop Finlayson then addressed the group. After a review of Personal Progress Goals, refreshments were served.

•**Cub Scouts** The Cubs are making preparation to celebrate Scout Month with a blue and gold Banquet to be held at 5:30 pm, February 22nd. It will be for all Cubs and their families.

•**Only A Teacher, Cont'd.**— My mother did not play the piano, and neither did my father, but mother was desirous that I should learn. But there was no money for lessons. To the rescue, came a neighbor girl, June Larson, age ten. I was six. How I wished that I could play "Tea for Two", "Nola", and "Doll Dance" the way she did. Using her own beginning piano books, she taught me some fundamentals, all for free. Soon I was playing "Skaters Waltz". •Then, we moved to Marriott, a small farming community five miles northwest of Ogden. I was now seven and don't recall touching the piano again until I was eleven. At this juncture, my mothers cousin, Mary Butler, offered to teach me. She lived two miles east of us and I would get there by walking through fields of alfalfa and a swamp. After only six weeks, the lure of the old swimming hole (on Mill Creek) at the bottom of our five acre farm, ended this round of piano lessons. But when summer was over, I occasionally practiced some of the sheet music that I had acquired. After five years in Marriott, we moved back to Ogden (664-30th Street) where we were in the Ogden 18th Ward. •Again, a neighbor girl, Joy Hibbert, who lived with her grand parents, William and Annie Poulter, offered to teach me, for free, as it had been before. She was twelve and I was sixteen. She was an expert and was taking lessons herself from a professional teacher. She introduced me to difficult scales and fingering, and to classical music, which at that point in my life, was not interesting. After a few lessons, I quit again. However I was interested in the "Hit Parade" music of the day: "The Music Goes Round and Round", "Heart and Soul", "It's June In January", "When I Take My Sugar To Tea", etc. I had also discovered Music Theory which piqued my scientific curiosity. •These were Depression Years and 15 cents was a lot of money, and that's what it cost to buy a piece of sheet music. I picked beans and cherries, hoed and pulled weeds, and sold Liberty magazines for a nickel ( I could keep one cent for making the sale). I was now fourteen and managed to make about \$10.00 per month. In those days, many children had to work to buy their own clothes, school books, and other necessities. I was among them. After the necessities were taken care of, I would buy some music theory books and an occasional piece of sheet music from Glenn Brothers Music store. Science and music were now together and my interest in playing the piano advanced another notch.

•I began to practice on my own and learned to play the church hymns and some popular music. I was now in the tenth grade at Lewis Junior High School. The music teacher learned that I was a passable piano player and had me accompany the school's chorus on occasion. At age sixteen, Bishop Grant Lofgren called me as Priesthood Organist and I was privileged to play the new Hammond Electronic Organ--the first one in Weber County. I examined its innards, learned how it worked, and science reinforced music again. •The next thing that reinforced my interest in piano was girls. The year was 1936. I was now seventeen and going to Ogden High School. Walking into the empty gym one day, I spotted a piano, sauntered up to it, and started to play. In no time at all, a couple of girls scooted over to the piano bench. Then one of them, standing behind me, leaned over and gently placed her elbows on my shoulders, and I could feel her warm breath and smell her perfume! . . . . .to be continued
