

Dear Grandpa and Grandma,

I was walking around the house and I found a tape with a variety of compositions Grandpa had written. I love it! The music is different from anything I've heard and gives me a break from all the rock music I listen to. Keep it going Grandpa! By the way I'll be sure to sing that lullaby you made up to my kids some day.

Right now my favorite courses in school are Advanced Art Studio and Humanities. Advanced Art Studio is a class where we are taught how to draw people. So far we have learned to draw portraits of people in pencil and I am learning how to use pastels. In Humanities we are learning about many philosophers (Socrates, Plato, Aristotle, Spinoza, Voltaire, Schopenhauer, etc.) as well as some theories concerning art and poetry.

My teacher for art is a man named Mr. Hess who is a very good artist as well as a great teacher. He will also be teaching me Painting (using watercolor) and 2-D Design next semester.

My teacher in Humanities is a great guy ~~named~~ named Mr. Burbaum. He teaches the band at school as well as my class and is very intelligent. He knows many languages and I heard he has an I.Q. of 170. He teaches and expects a lot ~~and~~ and is probably the best teacher I have ever had in school.

You two are great grandparents and amazing examples to me of how I should live. If it is possible I would really like to get a copy of each of your testimonies. I really need them and am going to work on my own so I'll be ready for my mission in one year.

Thank you for the neat
box and the beautiful stamps
you sent me from China.
Thank you for the mission/college
money which you have given me.
If I can invest in my
future children and grandchildren
the way you have I'll consider
myself rich.

Love,

Daniel Hill Boulton

P.S. Hope to ~~see~~ see
you soon. ☺
