

FUTURE PUBLICATIONS

1. 'The Comparison of Torsion and Tension Creep Data for a 0.18% Carbon Steel'
To be published in the A.E. Johnson Memorial Volume (with R.G. Patton and W.J. Skelton).
2. 'The Strength of Thick-walled Steel Cylinders at Elevated Temperatures'
To be published in High Temperature, High Pressure (with W.F.K. Kerr).
3. 'Creep of Thick-walled Cylinders based on Torsion Creep Data for a 0.18% Carbon Steel at 400°C'
Pressure Vessel Conference of ASME/KIVI, Delft 1969.
4. 'The Effect of Size on the Yield of Steels under Static Contact Loads'
The International Journal of Mechanical Engineering Sciences (with J.A. Olubode).
5. 'Experimental Investigation of Velocity of Flyer Plate in Explosive Welding'
2nd International Conference of the Center for High Energy Forming 1969
(with V. Shribman).
6. 'Metallurgical Observations on Explosive Welding'
2nd International Conference of the Center for High Energy Forming 1969
(with W. Lucas and J.D. Williams).
7. 'The Effect of Pressure on the Fatigue of Metals'
Chapter 7 of Mechanical Behaviour of Materials under Pressure edited by Dr. H.L.D. Pugh and to be published by the Elsevier Publishing Co. Ltd.
