FUTURE PUBLICATIONS

1

- 1. 'The Comparison of Torsion and Tension Creep Data for a 0.18% Carbon Steel' To be published in the A.E. Johnson Memorial Volume (with R.G. Patton and W.J. Skelton).
- 2. 'The Strength of Thick-walled Steel Cylinders at Elevated Temperatures' To be published in High Temperature, High Pressure (with W.F.K. Kerr).
- 3. Creep of Thick-walled Cylinders based on Torsion Creep Data for a 0.18% Carbon Steel at 400°C' Pressure Vessel Conference of ASNE/KIVI, Delft 1969.
- 4. 'The Effect of Size on the Yield of Steels under Static Contact Loads'
 The International Journal of Mechanical Engineering Sciences (with J.A. Olubode).
- 5. Experimental Investigation of Velocity of Flyer Plate in Explosive Welding 2nd International Conference of the Center for High Energy Forming 1969 (with V. Shribman).
- 6. 'Metallurgical Observations on Explosive Welding'
 2nd International Conference of the Center for High Energy Forming 1969
 (with W. Lucas and J.D. Williams).
- 7. 'The Effect of Pressure on the Fatigue of Metals'
 Chapter 7 of Mechanical Behaviour of Materials under Pressure edited by
 Dr. H.Ll.D. Pugh and to be published by the Elsevier Publishing Co. Ltd.
