

VOLTAJE-TIEMPO PERFILES

APPENDIX A

Fig. A.1. Voltage-time profiles are presented in the following order:

1. W3N annealed silver in order of increasing pressure, (a) to (f).
2. MRC annealed silver in order of increasing pressure, (g) to (m).
3. MRC unannealed silver, (n) and (o).
4. MRC annealed silver in Lucalox sandwiches, (p) and (q).
5. Anomalous records with MRC annealed silver, (r) and (s).
