

Correction to the paper: "High Pressure Synthesis of  $\text{PbCrO}_3$ " by  
R. C. DeVries and W. L. Roth, J. Am. Cer. Soc., 51(2), 72-75  
(1968)

The next to last sentence of the abstract is incorrect because octahedrally coordinated  $\text{Cr}^{4+}$  is well known in  $\text{CrO}_2$  and recently has been found in  $\text{SrCrO}_3$  [B.L. Chamberland, Solid State Communications, 5(8), 663-666 (1967)]. It was our intent to refer to mixed oxides containing octahedrally coordinated  $\text{Cr}^{4+}$ , a correct statement at the time our companion paper, Crystal and Magnetic Structure of  $\text{PbCrO}_3$ , J. Appl. Phys., 38(3), 951-52 (1967), was written.

R. C. DeVries  
W. L. Roth
