

# LIST OF TABLES

| TABLE |                                                                                       | PAGE |
|-------|---------------------------------------------------------------------------------------|------|
| I.    | Shot Data for the Room Temperature Liquids . . . .                                    | 51   |
| II.   | Shot Data for Liquid Nitrogen . . . . .                                               | 54   |
| III.  | Volume Expansion Data . . . . .                                                       | 56   |
| IV.   | Input Data for Thermodynamic Calculations<br>by the Computer . . . . .                | 61   |
| V.    | Shock Wave Data for the Benzene Hugoniot . . . . .                                    | 63   |
| VI.   | Shock Wave Data for the Carbon Disulfide<br>Hugoniot . . . . .                        | 73   |
| VII.  | Shock Wave Data for the Carbon Tetrachloride<br>Hugoniot . . . . .                    | 80   |
| VIII. | Shock Wave Data for the Liquid Nitrogen<br>Hugoniot . . . . .                         | 86   |
| IX.   | Some Calculated Thermodynamic Quantities<br>and Pertinent Experimental Data . . . . . | 95   |
