SOLID-STATE POLYMERIZATION

G. C. EASTMOND

The Donnan Laboratories, University of Liverpool, Liverpool 7

CONTENTS

Introduction	3
Methods of Initiation	4
Kinetic Studies	6
Polymerization of Vinyl Monomers	8
Nature of Reaction Sites	8
Electron Spin Resonance Studies	11
Variations in Crystal Structure	16
Tactic Polymerization	20
Reaction Mechanisms	23
Effects of Additives	28
Polymer Structure	30
Polymerization of Cyclic Monomers	32
Radiation Induced	32
Nature of the Reactive Species	36
Chemical Initiation	37
Solid-state Copolymerizations	37
Effects of Pressure	39
Small Pressures	39
High Pressures	40
References	42
