# Proceedings of the Fourth International Symposium on JET CUTTING TECHNOLOGY Canterbury, U.K., 1978

**Covers:** Fluid mechanics of continuous & pulsed jets; Rock cutting; Equipment; Basic cutting studies; Civil engineering applications; Industrial applications; Mining.

**30 papers, 450 pages (approx.), papercovers, A4, ISBN 0 900983 79 3.**

**Published in two volumes, Volume 1 currently available, Volume 2 available Spring 1979.**

**Price: US \$48.00 (p&p extra), £21.50 (UK only).**

## Contents of Volume 1:

Water jet nozzle performance tests. C.R.Barker and B.P.Selberg.

A study of the effect of nozzle configuration on the performance of submerged water jets. F.Erdmann-Jesnitzer, H.Louis and A.M.Hassan.

Flow characteristics of water jets in air. K.Yanai and A.Ohashi.

A numerical study of nozzle design for pulsed water jets. D.G.E.Edwards and D.J.Welsh.

Erosion by an interrupted jet. A.Lichtarowicz and G.O.Nwachukwu.

Application of water-jet assisted pick cutter for rock fragmentation. F.-D.Wang and J.Wolgamott.

Water jet breaking of imitation hot dry rock. H.Kiyohashi, M.Kyo and W.Ishihama.

Waterjet drilling of small diameter holes. S.D.Veenhuizen, J.B.Cheung and J.R.M.Hill.

The development of a water jet drilling system and preliminary evaluations of its performance in a stress situation underground. D.A.Summers, T.F.Lehnhoff and L.A.Weakly.

Cutting rocks and other materials by cavitating and non-cavitating jets. M.M.Vijay and W.H.Brierley. Design and test of an inlet-nozzle device. P.D.Lohn and D.A.Brent.

Design and dynamic response of a pulse-jet pavement breaker. U.J.Mohaupt, D.J.Burns, G.G.Yie and W.Mellors.

Jet cutting of metals with Pyronol torch. A.G.Rozner and H.H.Helms.

Erosion resistance of rock. G.Rehbinder.

Waterjet cutting of deep-kerfs. J.M.Reichman and J.B.Cheung.

Material behaviour, material stressing, principle aspects in the application of high speed water jets. F.Erdmann-Jesnitzer, H.Louis and J.Wiedemeier.

Jet induced target material temperature increases during jet cutting. K.F.Neusen and S.W.Schramm.

The application of a generalised jet cutting equation. M.Hashish and M.P.duPlessis.

On the equivalence between stationary and non-stationary modes of operation of water jets. T.R.Sundaram and H.-L.Liu.

Highway maintenance application of jet cutting technology. T.J.Labus and J.A.Hilaris.

Cutting and drilling of composites using high pressure water jets. T.J.Labus.

Surface cleaning using water-jet cavitation and droplet erosion. G.W.Vickers and R.Houlston.

Conservation and extraction of energy with the Cavijet<sup>TM</sup>. A.F.Conn and S.L.Rudy.

Water jetting under the North Sea. D.J.H.Odds.

Jet cutting for contouring applications on flexible materials. R.W.T.Skelham and P.Shaw.

750kW water jet pump for pile driving. K.Hoshino, M.Hagihara, S.Shikata and Y.Yamatani.

Performance of a high-pressure pulsed water-jet device for fracturing concrete pavement. G.G.Yie, D.J.Burns and U.H.Mohaupt.

An approach to remote controlled jet cleaning of chemical reaction vessels to gain the maximum benefit from the technique. I.D.Bardrick.

Jet assisted tunnelboring in coal-measure strata. J.Henneke and L.Baumann.

Surface trials of the Hydrominer. D.A.Summers and C.R.Barker.

Some experience in developing mining roadways using the experimental heading machine with pulsed water jets. A.I.Petrakov and O.D.Krivorotko.

Investigation of the interaction between high-speed water jet and cutter during breakage of a rock mass. I.A.Kuzmich and M.A.Ruthberg.

## Contents of Volume 2:

The effect of nozzle geometry on the turbulent structure of water jets - a photographic study. P.F.Thorne and C.R.Theobald.

Analysis of the mechanism of interaction high-pressure water jet on cutting material. M.Mazurkiewicz, G.Galecki and Z.Sebastian.

Discussion contributions, subject & author indexes, delegates list.

# Fifth International Symposium on **JET CUTTING** Technology

Hanover  
Federal Republic of Germany  
June 2-4, 1980

---

---

CALL FOR PAPERS AND ADVANCE NOTICE

---

---

**bhra**  
fluid engineering

Institut für Werkstoffkunde (B)  
Universität Hannover

**5th INTERNATIONAL SYMPOSIUM ON JET CUTTING TECHNOLOGY**  
**Hanover, June 2-4, 1980**

**GENERAL**

Another Symposium on the very successful and popular series of international conferences on **Jet Cutting Technology** is being arranged by **BHRA Fluid Engineering**. On this occasion, it will be organised in conjunction with the **Institut für Werkstoffkunde (B)** of the University of Hanover and will take place at Hanover, June 2-4, 1980.

Developments in techniques and equipment and in the number and variety of potential applications which have taken place since the last Symposium was held in the U.K., in April 1978 emphasise the necessity for this further opportunity for all those concerned to meet again.

The co-operation of our colleagues in Hanover, and the choice of a venue in Germany, together with the facilities of a dual-language presentation, should ensure an attractive and well-attended meeting with strong representation from the countries of continental Europe.

The official languages of the Symposium will be English and German.

**SCOPE**

Rapid advances have been made in the field of high pressure jets in recent years and it is expected that this Symposium will again provide an opportunity for leading authorities, world-wide, to meet, present and discuss the results of their studies, their experiences and opinions.

The meeting is expected to embrace a wide range of papers covering all areas of the technology with an emphasis on practical aspects.

Offers of papers should lie within the subject areas indicated below:

- Fluid mechanics of jets.
- Basic cutting studies
- Design, testing and operation of equipment.
- Safety measures
- Applications in industry and civil engineering and in mining and tunnelling
- Special applications including jet cleaning
- Water-Abrasive cleaning and cutting systems
- Environmental and economic aspects

State-of-the-art reviews as well as papers reporting new developments will be welcomed.

**OFFERS OF PAPERS**

Prospective authors are invited to submit titles and synopses of papers appropriate to the subject and scope of the Symposium in English, or in German with English translation, to reach BHRA as soon as can be arranged and, if possible, not later than **September 15, 1979**. Offers will be considered by a paper selection panel and authors will be notified of its decision by **October 15th**.

## OTHER BHRA CONFERENCES

**3rd International Conference on the Internal and External Protection of Pipes,**  
September 5-7, 1979. London, England

**6th International Conference on the Hydraulic Transport of Solids in Pipes -  
HYDROTRANSPORT 6,** September 26-28, 1979. Canterbury, England.

**3rd International Symposium on Dredging Technology.** In association with OCEANEXPO  
March 5-7, 1980. Bordeaux, France.

**3rd International Symposium on Pressure Surges.** In conjunction with The City Univer-  
sity, London, March 25-27, 1980. Canterbury, England.

**5th International Conference on the Pneumatic Transport of Solids in Pipes -  
PNEUMOTRANSPORT 5.** April 16-18, 1980. London, England.

**6th International Fluid Power Symposium (6 I.F.P.S.),** October 1-3, 1980. Cambridge,  
England.

## BHRA JET CUTTING PUBLICATIONS

Sets of Proceedings of previous meetings in the series:

Proc. 1st International Symposium. 1972 (Coventry) 600 pp.  
Proc. 2nd International Symposium 1974 (Cambridge) 566pp.  
Proc. 3rd International Symposium 1976 (Chicago) 550 pp.  
Proc. 4th International Symposium 1978 (Canterbury) 450 pp.

and

Jet Cutting Technology - A Bibliography, 1973, 452 refs

Further details of all conferences and publications from:  
BHRA Fluid Engineering, Cranfield, Bedford, England.

Completed manuscripts in either English or German and having a text of 3,000 - 5,000 words will be required by **January 7, 1980**.

Consideration will be given to all offers following receipt of Titles and Synopses, but acceptance for presentation at the Symposium will depend on the contents of the final manuscript and on the decision of the Organising Committee.

#### **Authors please note**

- (i) The Organisers consider it important that authors should present their papers in person at the Symposium.
- (ii) Papers that have been offered for publication or published elsewhere will automatically be disqualified from consideration.
- (iii) Papers may be presented in English or German as simultaneous translation facilities will be provided.
- (iv) Volume 1 of the Proceedings containing the papers accepted for presentation will be issued to delegates before the meeting. A record of the discussions and other contributions will be published subsequently in Volume 2.

#### **MINI EXHIBITION**

A table-top exhibition is planned to enable participating organisations to display company literature and associated material. Those interested should complete and return the attached form and check the appropriate box.

#### **FURTHER INFORMATION**

A further leaflet, listing the papers to be presented and including a detailed reservation form, will be mailed early in 1980. To ensure that you receive this information please return the attached form.

All enquiries about the Symposium should be addressed to:

5th INTERNATIONAL SYMPOSIUM ON JET CUTTING TECHNOLOGY  
Hanover, June 2-4, 1980

To: Symposium Organiser,  
5th Jet Cutting Symposium,  
BHRA Fluid Engineering,  
Cranfield,  
Bedford MK43 0AJ,  
England.

**PLEASE CHECK THE APPROPRIATE BOX**

I wish to submit a paper for the 5th Jet Cutting Symposium  
(title and synopsis overleaf/attached)

If accepted, I will present it myself

I am unable to offer a paper but would like to attend.  
Please send full particulars and reservation form when published

My organisation is interested in exhibiting and wishes to receive  
more details

**Name and Address for Correspondence and Further Information**

**From:**

Name (Prof/Dr/Mr/Ms) .....

Position/Appointment .....

Organisation/Firm .....

Postal Address .....

.....

.....

..... Country .....

Telephone ..... Telex .....

Date ..... Signed .....

**Have you a colleague who might wish to offer a paper or to attend?**

Please send him a copy of this leaflet
