INSTRUCTIONS FOR THE USE OF THE YELLOW SHIPPER'S EXPORT DECLARATION

(Commerce Form 7525-V)

(Follow Carefully to Avoid Delay at Shipping Point)

I. GENERAL PROVISIONS OF LAW AND REGULATIONS

(a) Vessels shall not be cleared for foreign ports until export declarations covering the cargo, or its parts, have been delivered to customs at the point of exportation by the owners, shippers, or consignors thereof. Similar provisions apply to exportations by rail, air, vehicle, or ferry. A declaration shall not be used to effect any exportation after the expiration date of the export license referred to therein except as specifically authorized by export regulations.

(b) A declaration presented to a Customs Director or Postmaster and used to effect an exportation of any commodity for which a validated export license or a general license is required, constitutes a representation by the exporter (1) that all statements made and information set forth in the declaration have been furnished by him or on his behalf for the purpose of effecting an exportation in accordance with the export control regulations; (2) that the exportation of the commodity described in the declaration is authorized under the general or validated export license identified in the declaration; (3) that the statements contained in the declaration are identical in all respects with the contents of the validated export license or the terms, provisions, and conditions of the applicable general license; and (4) that all other terms, provisions, and conditions of the export control regulations applicable to the exportation have been met.

(c) It is unlawful under United States laws and regulations for any person, whether or not situated in the United States, knowingly to make any false or misleading representation, statement, or certification or to falsify or conceal any material fact, whether directly to the Bureau of International Commerce, the Bureau of the Census, any district director of customs, or an official of any other United States agency, or indirectly through any other person or foreign government agency or official, for the purpose of or in connection with effecting an exportation from the United States, or the reexportation, transshipment or diversion of any such exportation, or the issuance, or maintenance in effect of any document relating to export control, or in the course of an investigation or other action instituted under the authority of the Export Administration Act of 1969. Any person who knowingly violates any provision of said Export Administration Act of 1969 or any regulation, order, or license issued thereunder shall be fined not more than \$10,000 or imprisoned not more than one year, or both. For a second or subsequent offense, the offender shall be fined not more than three times the value of the exports involved or \$20,000, whichever is greater, or imprisoned not more than five years, or both. (Export Administration Act of 1969, Sec. 6; 83 Stat. 844, 50 U.S.C. App. 2405).

(d) Commodities which are intended to be, or are being, or have been, exported in violation of the export control law and the regulations promulgated thereunder, are subject to seizure, detention, condemnation, and sale under the Act of June 15, 1917, Ch. 30, Title VI, Sec. 1, 40 Stat. 223; 22 U.S.C. Sec. 401, as amended.

(e) It is a criminal offense for any person to knowingly make to the Bureau of the Census or the Bureau of International Commerce any false or misleading statement or representation relating to information on the Shipper's Export Declaration, subject to a maximum penalty of \$10,000 fine or imprisonment for 5 years, or both (18 U.S.C. Sec. 1001).

(f) Shipper's export declarations must also be filed for shipments between the United States and Puerto Rico, and from the United States or Puerto Rico to American Samoa and the Virgin Islands of the United States.

(g) For instructions regarding the use of this form for parcel-post exportations, see current United States Postal Manual, Chapter 2. One copy of the declaration should be mailed by postmaster to: Export Document Control, Foreign Trade Statistics Unit, Bureau of the Census, Room 308—Building 66, Jeffersonville, Indiana 47130.

II. SHIPPER'S EXPORT DECLARATIONS (Commerce Form 7525-V)

(a) Must be made in triplicate for shipments by vessel, air, rail, car, vehicle, and ferry for all merchandise shipped to foreign countries, including Canada, where that country is not the final destination. For shipments finally destined to Canada, and between the United States and Puerto Rico and from the United States or Puerto Rico to American Samoa or the Virgin Islands the declarations must be made in duplicate. Under export control regulations, additional copies may be required by the Bureau of International Commerce. (Commerce Form 7525-V should not be filed for merchandise shipped in-transit through the United States from one foreign country to another. In lieu thereof, "Shipper's Export Declaration for in-transit Goods" on Commerce Form 7513 should be filed.)

(b) For shipments to foreign countries, the exporter or his forwarding agent (duly authorized by a general power of attorney, or by specific power of attorney in item 18, of the export declaration form) or a duly authorized officer or employee of either must sign the original copy of the declaration in the space provided for signature. The name of the corporation or firm and the capacity of the signer (secretary, export manager, etc.) must be set out in the line captioned "For" in item 19. Oath is not required on the declaration, but the provisions of law and export control regulations applicable to false representations, as indicated in paragraph I (c) and (e), above, are fully applicable.

(c) Designation of agent must be in writing and signed by the exporter on declaration or in separate document providing similar authorization, which shall be filed in the agent's office and available on demand. Export control regulations define a "forwarding agent" as a person authorized by a named exporter to perform for the exporter actual services which facilitate exportation of the commodities described in the declaration, such as preparing the declaration, attending to clearance of the shipment by submission of documents to the Customs Director or export control officers, securing cargo space or delivering the commodities to the exporting carrier, obtaining bills of lading in connection with the exportation, and attending to the formalities of consular invoices, certificates of origin, and other like documents; but such person need not be regularly engaged in the freight forwarding business.

(d) An authenticated declaration evidences the existence of a validated export license or an exportation permitted by an applicable general license. It is a violation of the export control law and regulations for any person to receive, use, alter, or assist in or permit the use or alteration of, any export declaration which has been authenticated by a Customs Director in connection with the exportation of any commodity under a general or validated export license, for the purpose of facilitating or effecting any exportation other than that set forth in such declaration and in accordance with the terms, provisions, and conditions thereof. Any person receiving an authenticated declaration showing evidence of unauthorized change, alteration, or amendment may not take any action to facilitate the exportation, but must report the facts to the nearest Customs Director and surrender the declaration to such Director.

(e) In the case of exportations subject to the export control law and regulations, the original and two copies (or additional copies if required or authorized by export control regulations) of the declaration submitted to the Customs Director at the port of exit by the exporter, his named duly authorized forwarding agent (or a duly authorized officer or employee of either) will be authenticated by Customs. The Customs Director will retain the original and one copy, and will return one (or more where required or authorized) authenticated copy to the exporter or such agent. One copy so returned shall be delivered by the exporter, or his agent, to the exporting carrier for attachment to the outward manifest. The additional copy or copies, when required or authorized, shall be used by the exporter in conformity with export control regulations. All copies not used shall be returned to the Customs Director. The statistical (manifest) copy of the declaration will be forwarded by the Director to the Bureau of the Census. Customs Directors will not authenticate a declaration which has been altered, changed, or amended, except as and to the extent authorized by the export control regulations.

(f) For shipments by rail, truck, or other vehicle requiring more than one rail car, truck or other vehicle, separate declarations are required for the merchandise carried aboard each such rail car, truck or other vehicle.

(g) Shipper's Export Declarations are for use solely for official purposes authorized by the Secretary of Commerce. Use for unauthorized purposes is not permitted. In accordance with the provisions of the Export Administration Act and the Foreign Trade Statistics Regulations, information from the export declarations will be published or disclosed only when the Secretary has determined that the withholding thereof is contrary to the national interest.

If vessel, give name of ship, flag, and number or name of pier at which the goods were laden. If air, give name of airline. If "Other" (rail, vehicle, etc.), give name of carrier and identification by number or other designation.

ITEM 3. "Exporter"—Exporter named shall be the licensee named in the validated export license or person entitled to make the exportation under applicable general license in conformity with export control regulations.

ITEM 5. "Ultimate Consignee"—Ultimate consignee (whether by sale in U.S. or abroad, or by consignment) shall be person named as ultimate consignee in validated export license or authorized to be ultimate consignee under applicable general license in conformity with export control regulations.

ITEM 6. "Intermediate Consignee"—Intermediate consignee shall be person named as such in validated export license or authorized to act as such under applicable general license and in conformity with export control regulation. If none, state "none." Intermediate consignee should be inserted if known at time of authentication.

ITEM 8. "Place and Country of Ultimate Destination"—The final place and country of destination, not the place of transshipment, should be shown in the space provided for "Place and Country of Ultimate Destination." Special care should be taken to give the final place and country of destination for goods shipped through Canada, United Kingdom, Canal Zone, Chile, Peru, or other seaboard countries for transshipment to other countries, such as through Chili or Peru, destined for Bolivia.

IV. DESCRIPTION OF ARTICLES, QUANTITIES, AND VALUES

COLUMN 9.—Insert marks and numbers.

COLUMN 10.—Insert number and kinds of packages, description of commodities, export license number, and expiration date, or general license symbol. Commodities must be described by nature and quantity in sufficient detail to permit verification of the Schedule B commodity numbers assigned. The description of the articles must be definite and complete, preferably the common commercial name of the specific article, and must conform with that set forth in the validated export license or with the requirements of the applicable general license. General terms such as "dry goods," "groceries," "meats," etc., are not sufficient. Catalog numbers or other characteristic trade identifications should be used where they will aid such description. Identification or description by trademark or brand name should be avoided where possible.

COLUMN 11.—Insert gross weight in pounds for vessel and air shipments only.

COLUMN 12.—Specify whether of domestic or foreign origin. Exports of domestic merchandise include commodities which are the growth, produce, or manufacture of the United States. Exports of foreign merchandise include commodities of foreign origin which entered the United States as imports, and which, at the time of exportation, are in the same condition as when imported. Commodities of foreign origin which have been changed in the United States from the form in which they were imported, or which have been enhanced in value by further manufacture in the United States, are considered as "domestic" commodities.

The above definition of the distinction between domestic and foreign merchandise is intended only for use in reporting column (12) on this export declaration and is intended for statistical purposes only.

COLUMN 13.—Insert the Schedule B commodity code number. See Instructions VII (a) below.)

COLUMN 14.—Insert the net quantity in Schedule B unit. State the unit of quantity shown; i.e., pounds, square yards, etc.

COLUMN 15.—Insert the dollar value at time and place (U.S. port) of export (omit cents figures). Value stated should be the selling price, or cost if not sold, including inland freight, insurance, and other charges to border point, seaport, or exporting airport. Ocean freight, marine insurance, and other charges incurred beyond the U.S. port of exportation should be excluded.

ITEM 16.—For convenience of exporter, to be inserted if desired.

ITEM 17.—To be inserted by Customs Director.
