Provo, Utah 84601

Dear Tracy:

Enclosed are the drawings for the anvil guide device I need here. I would appreciate your comments and, if possible, an estimate on your making them. I was sorry to hear that the machinist's market had gotten so tight there. This is basically an unofficial bid to see if we can afford modification now - the official work has to go through our supply people here.

I thank you for your advice on this project thus far. I hope you're having as enjoyable a Fall as we are here. Give my best to all there.

Sincerely,

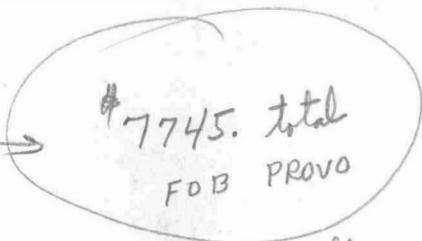

Alan W. Webb
High Pressure Physics Section
Solid State Division
