HONEMATIC
Machine Corporation
Route 140
Boylston, Mass 01505

Gentlemen:

Please quote on six (6) each of Cylinders (for hydraulic use) according to the enclosed print. The cylinders are to be made from 4340 steel forgings of aircraft quality heat treated to a hardness of R_c 28-32. If you have alternate suggestions on the material to be used, on tolerances, or on dimensions, we will be happy to discuss these matters.

Sincerely,

H. Tracy Hall
