

MOSINEE

Paper Mills Company

MANUFACTURERS OF SPECIFICATION PAPERS

MOSINEE · WISCONSIN

November 25, 1959

Mr. H. Tracy Hall
Director of Research
Brigham Young University
Provo, Utah

Dear Mr. Hall:

Thank you very much for your interest in Mosinee HYDENSEL papers.

The properties of this paper make it suitable for a wide variety of uses—especially as a replacement for a more expensive material that may be over-designed for a particular application.

Enclosed are three samples of Mosinee HYDENSEL paper. While their properties may not be precisely what you require, these samples will give you a general idea of the qualities of this particular type of paper.

If you will advise us regarding the properties you require and the application to which the paper will be put, we can determine whether we can develop and produce a satisfactory sheet for you. As a matter of fact, it is quite possible that we are already manufacturing a paper that will meet your requirements.

Please let us know what we can do to help you with your paper problem.

Sincerely,

R. T. Seith
Sales Manager
