Dr. B.K. Agarwala,
Head, Division of Hydrostatic Extrusion
and Materials Research
National Physical Laboratory
Hillside Road
New Delhi-110012, India

Dear Dr. Agarwala:

The spare heating controller was shipped to the UNDP in New York on October 22nd by my daughter, Virginia, via AIR Mail, special delivery. I can not understand why it did not arrive in India before I left. At any rate, I hope you have received it by now along with the circuit diagram and spare capacitors that were included with this special shipment. A spare voltmeter was shipped to you through the UNDP, New York, on December 2nd. I can not ship the spare ammeter until an official purchase order has been received for it and I have informed Mr. J. Pellegrino of the UNDP about this.

Drawings for the two sizes of tungsten carbide backing blocks that are used in your press are enclosed.

I hope your research is going well and that you will have good health and well being. I send my best regards to you and your colleagues and to your wife and family.

Sincerely yours,

H. Tracy Hall
