Dear Dr. Hall,

We appreciate your call and most interesting reprint, such arriving 5-27-77, mailed 5-24-77.

We are sending the two G.E. handbooks under separate cover. Wentrof, Bundy, and DeVries have recently supplied us with reprints of some their papers. Let me know if listing of such would be of any interest to you.

Can you suggest particular references pertaining to the synthesis of octahedral diamond ~~and~~ in sizes 100 micrometer or smaller?

Thank you for your good invitation to visit. We look forward to meeting with you in the near future and meanwhile wish to again to express our appreciation for your very thoughtful assistance.

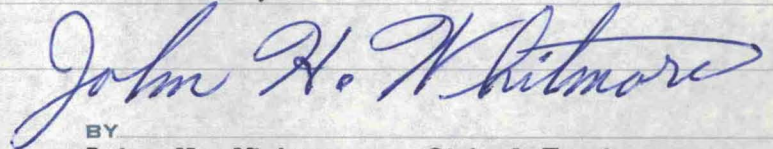

Cordially yours,

METROLOGY, INC.
