Dear Prof. Hall,

I have been informed by the United Nations that they have arranged for my visit to your laboratory for Feb. 19 through 23, 1979. The visit is essentially to acquaint myself with the latest developments in the synthesis of superhard materials and other studies at high pressure and temperature. Since, I would be a complete stranger there, I wonder whether I can depend on your kindness to please locate some reasonably priced (\$15 - \$20 per day) accommodation there for my stay. Could it be possible, for example, for you to fix up accommodation in the university guest house or one of its residential halls?

I am looking forward to the pleasure of meeting you.

Yours Sincerely,

M. M. Bisdal
